## [LED Wall Washer](#)

Our LED wall washer, also called linear style LED project lamp, is mainly used for decorative lighting of buildings. Its technical parameters are similar to that of LED project lamp. However, compared with circular LED project lamp, our linear LED wall washer has better heat dissipation.

### **Applications**

The LED wall washer can be used indoors and outdoors. It can be used for decorative lighting of modern or historic buildings, green plants, advertising boards, medical facilities, cultural facilities, wine bars and dance halls, etc.
