## Corn LED Light

Our corn LED light is shown in the left pictures. As its name suggests, its shape is like a corn. Made of glass fiber and polycarbonate, it has properties of impact resistance, shock resistance, no thermal radiation and long service life. When using together with different reflectors, our corn LED light can achieve different lighting effects. Nowadays, it is widely used in households, hotels, schools, hospitals, and other places.

We provide three types of corn LED light for you to choose from, that is 5w, 7w and 13w. Their specifications are shown as follows.

### Technical Parameters

Model	5W	7W	13W
Input voltage	AC220V		
Luminous flux	300-310lm/255-265lm	460-480lm/390-410lm	1040-1100lm/880-935lm
Input power	4W-5W	5.5-6.5W	13.5-14.5W
Color temperature	6500K/2800K-3000K		
Luminous angle	60°	60°	120°
Materials	Glass fiber and polycarbonate		
Luminous efficiency	67lm/W	76.5lm/W	74lm/W
Quantity of LED	63	98 $\Phi$ 5LED	76 5050SMD
Color rendering index	Ra >80		
Service life	$\geq$ 20000 hours		
Size	$\phi$ 52mm * 129mm	$\phi$ 46mm * 126mm	$\phi$ 41mm * 123mm

Deasy is consistently dedicated to provide our worldwide customers with superior quality LED spotlight, LED tube light and landscape LED light. To this end, we establish a national grade technical center to provide strong technical support for our reliable LED lighting products. Currently, our CCC, CE and ROHS certified products are widely exported to America, Europe, Oceania, Asia, and other areas. If you are looking for those products, please do contact us. We are happy to serve you.
